- Claims 9-12, 17-24 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method for manufacturing a semiconductor device that includes the step of crystallizing a semiconductor film by irradiating with a laser beam through light attenuating means that is inserted between an oscillator and a homogenizer, wherein an energy of the laser beam is lower than an output energy range that allows the oscillator to operate most stably.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
